We will charge an annual investment management fee either based upon 1) a percentage of the market value of the assets being managed by us, or 2) a fixed fee schedule. The investment management fee is charged depending on the type of client account and will vary (generally between 1.25% and 2.0%) depending upon the market value of assets under management or a fixed fee schedule, as specifically set forth in the *Investment Advisory Agreement* between us and you.

Retirement Plan Consulting Services

Smedley Financial Services, Inc. provides retirement plan consulting services to companies who sponsor or are interested in sponsoring a retirement plan for their employees. For these services we charge an annual fee of up to 1.50%.

Fees will be determined based on the total market value of the plan assets, the complexity of the plan, the number of participants, other relationship Smedley Financial Services, Inc. may have with the plan provider or trustees, the level of service to be provided to the plan, the geographical location(s) and number of office locations of the plan sponsor and plan participants.

When determining the fee, we will also take into consideration special situations or conflicts of interest where charging a fee is prohibited under ERISA laws and relationships with the client. The fee is assessed in arrears at the end of each calendar quarter and will be calculated based on the market value

of the plan assets at the end of the calendar quarter. Fees for partial periods will be prorated based on the number of days that services were provided during the billing period. The plan trustee will elect to be invoiced for this fee or authorize that the fee be debited from the plan assets.

When providing participant level investment advice, each participant will be required to execute an agreement for services with us and advice will be limited to recommendations on investing with in the retirement plan.

For individual participants, we charge a percentage of the participant's account value. The percentage fee ranges up to 1.50% per year. Fees are negotiable based upon the actual services requested and the complexity of the participant's situation.

For retirement plan sponsors and participants, fees are billed in advance (at the start of the billing period) on a quarterly calendar basis and calculated based on the fair market value of your account as of the last business day of the previous billing period. Fees are prorated (based on the number of days service is provided during the initial billing period) for your account opened at any time other than the beginning of the billing period. Retirement plan sponsors may also elect to pay all or a portion of fees for the individualized services provided by us to the plan participants.

Fee will be directly deducted from clients' accounts or the client may elect to have an invoice prepared and sent for the fee billing. If the fees are deducted clients will be required to provide the custodian with written authorization to deduct the fees from the account and pay the fees to Smedley Financial Services. We will provide the custodian with a fee notification statement.

Either party may terminate services by providing written termination to the other party. If services are terminated within five business days of executing an agreement for services with us, services will be terminated without penalty. After the initial five business days, you will be responsible for payment of fees for services completed prior to termination of services. If services are terminated mid-period, a prorated fee is charged based on the number of days that services were provided during that period.

Smedley Financial Services does not reasonably expect to receive any other compensation, direct or indirect, for its Services. If we receive any other compensation for such services, we will (i) offset that compensation against our stated fees, and (ii) will disclose the amount of such compensation, the services rendered for such compensation and the payer of such compensation to you.

SAA Programs

SAA's Financial Advisors Program (FAP) is a wrap-fee program providing investment advisory services and execution of client transactions for which the specified fee (or fees) is not based directly upon transactions in the client's account. Under FAP, we will assist you in the establishment of an FAP Account (the Account) with SAA. All brokerage transactions in the Account will be processed by SAI, an affiliated broker/dealer of SAA. The brokerage transactions will then be cleared through National Financial Services, LLC (NFS) pursuant to a clearing arrangement established by SAI with NFS. SAA has also entered into agreements with various insurance companies that allow for the management and valuation of client variable annuity accounts with SAA's FAP.

The custody of all funds and securities will be maintained by NFS, insurance companies or other custodians. At no time will SAA, SAI, Smedley Financial Services or our representative's act as custodian of the Account or have direct access to your funds and/or securities. Our representatives implement securities transactions for FAP client Accounts in their separate capacities as registered representatives

of SAI (see disclosure at Item 10 below). The annual management fees charged for this service will be negotiated with each client, with 3% being the maximum management fee that may be charged to clients unless the Account only has mutual funds and then the maximum will be 2.25%. SAA retains up to 14 basis points (.14%) of the annual management fee for FAP Accounts.

A complete description of FAP and related fees and charges are described in SAA's Financial Advisors Program Form ADV Part 2 Appendix 1 Disclosure Brochure in addition to the SAA Client Relationship Summary (form CRS) that will be given to all clients prior to or at the time an FAP Account is established.

General Disclosures

Advisory fees charged are calculated as previously described, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds, or any portion of the funds of an advisory client (15 U.S.C. §80b-5(a)(1)).

Smedley Financial Services, Inc. does not represent, warranty, or imply that the services or methods of analysis employed by the firm can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines.

We will not maintain custody of client assets. Assets will be maintained by a qualified custodian.

Brokerage commissions and/or transaction ticket fees charged by the custodian and/or clearing broker/dealer are billed directly to you. We do not receive any portion of such commissions or fees from the custodian or client. In addition, you may incur certain charges imposed by third parties other than us in connection with investments made through the account, including but not limited to, mutual fund sales loads, 12(b)-1 fees and surrender charges, variable annuity fees and surrender charges, and IRA and qualified retirement plan fees. Advisory fees charged by us are separate and distinct from the fees and expenses charged by investment company securities that may be recommended to clients. A description of these fees and expenses are available in each investment company security's prospectus.

Custody of all investment management accounts will generally be held at an independent custodian. In most cases, the custodian will be NFS or the specific mutual fund or insurance company that issued the mutual fund or variable life/annuity product. In addition to the *Investment Advisory Agreement*, you may be required to execute a separate agreement with the specific custodian, mutual fund and/or insurance company. Both our *Investment Advisory Agreement* and custodial agreement may authorize the designated custodian to debit the account for the amount of our management fee and to directly remit that management fee to us in accordance with required SEC procedures.

Factors which we consider in recommending NFS (or other broker/dealers/custodians) to you include financial strength, reputation, execution, pricing, research and service. Certain broker/dealers/custodians enable us to obtain many no-load mutual funds without transaction charges and other no-load and load waived funds at nominal transaction charges. Broker/dealers and custodians generally charge commission rates which are generally considered discounted from customary retail commission rates.

Although the commissions and/or transaction fees that may be paid by our clients will comply with our duty to obtain best execution, you may pay a commission that is higher than another qualified broker/dealer might charge to effect the same transaction where we determine, in good faith, that the commission is reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the

transaction represents the best qualitative execution, taking into consideration the full range of broker/dealer services, including the value of research provided, execution capability, commission rates and responsiveness. Accordingly, although we will seek competitive rates we may not necessarily obtain the lowest possible commission rates for your account transactions. The brokerage commissions and/or transaction fees charged by the designated broker/dealer/custodian are exclusive of, and in addition to, our investment advisory fee.

Custodians and/or broker/dealers generally charge transaction fees and/or commissions for effecting certain mutual fund securities transactions. In addition to our investment management fee, brokerage commissions and/or transaction fees, you will also incur, relative to all mutual fund and variable investment products, charges imposed at the mutual fund and variable investment product level (e.g. advisory fees and other fund expenses). The brokerage commissions, transaction fees and/or custodial fees charged are exclusive of, and in addition to, our investment management fee. Certain of the mutual funds and/or variable life/annuity products which comprise of your investment portfolio may have been purchased by you, prior to, contemporaneous with or subsequent to the engagement of us, through our principals and/or associated persons, in their individual capacities as registered representatives of SAI, for which product sales our principals and/or associated persons may have been paid a commission.

In addition, our principals and/or associated persons, relative to commission mutual fund sales, also in their individual capacities as registered representatives of SAI, may also receive on-going 12b-1 trailing commission compensation from a specific mutual fund company during the period that you maintain the mutual fund investment in your portfolio managed by us. Our investment management fee is exclusive of, and in addition to, any such commission charges.

Certain investment opportunities that become available to our clients may be limited. For example, various mutual funds may, from time to time, limit the number of shares available for purchase by mutual fund asset allocators, such as us. In order to meet our fiduciary duties to all of our clients, we will endeavor to allocate investment opportunities among all clients on a fair and equitable basis. However, except as otherwise provided by federal or state securities laws, we will not be liable for an adverse decision by a mutual fund or insurance company to unilaterally restrict and/or prohibit such asset allocation activities of ours.

In performing our services, we will not be required to verify any information received from you or from your other professionals, and is expressly authorized to rely thereon. You are free to accept or reject any recommendation made by us. Moreover, each client is advised that it remains your responsibility to promptly notify us if there is ever any change in your financial situation or investment objectives for the purpose of reviewing/evaluating/revising our previous recommendations and/or services.

Our clients are advised to promptly notify us if there are ever any changes in your financial situation or investment objectives or if you wish to impose any reasonable restrictions upon our management services.

Neither Smedley Financial Services or you may assign the *Financial Planning and Consulting Agreement* or the *Investment Advisory Agreement* without the prior consent of the other party. Transactions that do not result in a change of actual control or management of ours will not be considered an assignment.

A copy of our written disclosure statement Form ADV Part 2A will be provided to each client prior to or contemporaneously with the execution of the *Financial Planning and Consulting Agreement* or the *Investment Advisory Agreement*. Any client who has not received a copy of our disclosure statement at

48 hours prior to executing the *Financial Planning and Consulting Agreement* or the *Investment Advisory Agreement* will have five business days subsequent to executing the agreement to terminate our services without penalty.

Comparable Services

We believe our fees for advisory services are reasonable with respect to the services provided and the fees charged by other investment advisors offering similar services. However, lower fees for comparable services may be available from other sources.

Compensation for the Sale of Securities or Other Investment Products

As briefly disclosed in *Item 4 – Advisory Business*, our advisor representatives can sell securities in their separate capacities as registered representatives of Securities America. In addition, they may sell insurance products in their capacities as independent insurance agents for sales commissions.

Some of the advice offered by our advisor representatives may involve investments in mutual fund products. Load and no-load mutual funds may pay annual distribution charges sometimes referred to as 12b-1 fees. However, our advisor representatives do not receive any portion of the 12b-1 fees paid and other compensation such as commissions, loads, trails, etc. when holding mutual funds in FAP accounts. Because we only receive advisory fees charged to clients, there is not an incentive for us to recommend investment products paying commissions and other fees when selecting mutual funds. Therefore, we primarily recommend no-load mutual funds and mutual funds priced at net-asset-value.

When administering non-advisory, non-fee based accounts through Securities America, our advisor representatives will receive normal and customary commissions. This will include a portion of 12b-1 fees, trailer fees, and loads from some investment companies. Clients should be aware that these 12b-1 fees come from fund assets, and thus, indirectly from client's assets. The receipt of these fees could represent an incentive for registered representatives to recommend funds with 12b-1 fees or higher 12b-1 fees over funds with no fees or lower fees, therefore creating a conflict of interest. The brokerage commissions charged by SAI may be higher or lower than those charged by other broker/dealers

You are never obligated to use Securities America and you are never obligated to purchase investment products through our investment advisor representatives. You have the option to purchase investment products through other brokers or agents that are not affiliated with Smedley Financial Services.

Item 6 – Performance-Based Fees and Side-By-Side Management

Item 6 is not applicable to this Disclosure Brochure because Smedley Financial Services, Inc. does not charge or accept performance-based fees. Performance-based fees are fees based on a share of capital gains or capital appreciation of the assets held within a client's account.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Smedley Financial Services, Inc. uses the following methods of analysis in formulating investment advice:

Charting - The set of techniques used in technical analysis in which charts are used to plot price movements, volume, settlement prices, open interest, and other indicators, in order to anticipate future price movements. Users of these techniques, called chartists, believe that past trends in these indicators can be used to extrapolate future trends.

Cyclical - Analyzes the investments sensitive to business cycles and whose performance is strongly tied to the overall economy. For example, cyclical companies tend to make products or provide services that are in lower demand during downturns in the economy and higher demand during upswings. Examples include the automobile, steel, and housing industries. The stock price of a cyclical company will often rise just before an economic upturn begins, and fall just before a downturn begins. Investors in cyclical stocks try to make the largest gains by buying the stock at the bottom of a business cycle, just before a turnaround begins.

Fundamental - A method of evaluating a security by attempting to measure its intrinsic value by examining related economic, financial and other qualitative and quantitative factors. Fundamental analysts attempt to study everything that can affect the security's value, including macroeconomic factors (like the overall economy and industry conditions) and individually specific factors (like the financial condition and management of companies). The end goal of performing fundamental analysis is to produce a value that an investor can compare with the security's current price in hopes of figuring out what sort of position to take with that security (underpriced = buy, overpriced = sell or short). This method of security analysis is considered to be the opposite of technical analysis. Fundamental analysis is about using real data to evaluate a security's value. Although

most analysts use fundamental analysis to value stocks, this method of valuation can be used for just about any type of security.

Technical - A method of evaluating securities by analyzing statistics generated by market activity, such as past prices and volume. Technical analysts do not attempt to measure a security's intrinsic value, but instead use charts and other tools to identify patterns that can suggest future activity. Technical analysts believe that the historical performance of stocks and markets are indications of future performance.

Investment Strategies

Smedley Financial Services, Inc. uses the following investment strategies when managing client assets and/or providing investment advice:

SFS Proactive Portfolios: Are designed to be risk-averse, market-driven, and performance-oriented. The portfolios seek greater relative returns during periods of growth and better asset protection during significant market downturns by maintaining flexibility as economic conditions change. They were created with the goal of helping investors combat fluctuating markets.

SFS Phase Portfolios: Were created to enhance income distribution planning. Each of the SFS Phase Portfolios is designed for a specific time horizon, target return, and risk tolerance that match the objectives of each income distribution phase or period.

SFS Tax-Efficient Portfolios: Have a goal to maximize after-tax returns. This is accomplished by keeping turnover low in passive investment vehicles that rarely make capital gains distributions. This leaves the advisor and client with more control over triggering taxable events. These portfolios are also designed to help keep investment costs low.

Use of Primary Method of Analysis or Strategy

Smedley Financial Services, Inc.'s primary method of analysis or strategy is proactive investing. Some of the risks involved with using this method include market risk and active trading risk. Frequent trading of securities may have a positive or negative impact on investment performance. Performance from active trading can be lowered due to an increase in brokerage and other transaction costs.

Primarily Recommend One Type of Security

Smedley Financial Services, Inc. does not primarily recommend only one type of security.

Risk of Loss

Past performance is not indicative of future results. Therefore, you should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities (including stocks, mutual funds, and bonds) involves risk of loss. Further, depending on the different types of investments there may be varying degrees of risk. You should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully

identify market tops or bottoms, or insulate you from losses due to market corrections or declines. There are certain additional risks associated when investing in securities through our investment management program.

- Market Risk – Either the stock market as a whole, or the value of an individual company, goes down resulting in a decrease in the value of client investments. This is also referred to as systemic risk.
- Equity (stock) market risk – Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. If you held common stock, or common stock equivalents, of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer.
- Company Risk - When investing in stock positions, there is always a certain level of company or industry specific risk that is inherent in each investment. This is also referred to as unsystematic risk and can be reduced through appropriate diversification. There is the risk that the company will perform poorly or have its value reduced based on factors specific to the company or its industry. For example, if a company's employees go on strike or the company receives unfavorable media attention for its actions, the value of the company may be reduced.
- Fixed Income Risk - When investing in bonds, there is the risk that issuer will default on the bond and be unable to make payments. Further, individuals who depend on set amounts of periodically paid income face the risk that inflation will erode their spending power. Fixed-income investors typically receive set, regular payments that face the same inflation risk. High-yield bonds carry increased credit risk related to the quality of the issuing company.
- Foreign and Emerging Market Risk – Entails special risks such as currency fluctuations, political developments, economic and market instability. Emerging Markets involve heightened risk associated with the same factors and may have less liquidity.
- ETF and Mutual Fund Risk – When investing in an ETF or mutual fund, you will bear additional expenses based on your pro rata share of the ETF's or mutual fund's operating expenses, including the potential duplication of management fees. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities the ETF or mutual fund holds. Clients will also incur brokerage costs when purchasing ETFs.
- Management Risk – Your investment with our firm varies with the success and failure of our investment strategies, research, analysis and determination of portfolio securities. If our investment strategies do not produce the expected returns, the value of the investment will decrease.

Item 9 – Disciplinary Information

Item 9 is not applicable to this Disclosure Brochure because there are no legal or disciplinary events that are material to a client's or prospective client's evaluation of our business or integrity.

Item 10 – Other Financial Industry Activities and Affiliations

Smedley Financial Services is an independent investment advisory firm and only provides investment advisory services. The firm is not engaged in any other business activities and offers no other services than those described in this Disclosure Brochure.

Smedley Financial Services is **not** and does **not** have a related company that is a:

2. Futures commission merchant, commodity pool operator or commodity trading adviser,
3. Investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or "hedge fund," and offshore fund),
4. Other investment adviser
5. Financial planning firm,
6. Banking or thrift institution,
7. Lawyer or law firm,
8. Pension consultant,
9. Real estate broker or dealer,
10. Sponsor or syndicator of limited partnerships, or
11. Accountant or accounting firm.

While Smedley Financial Services does not sell products or services other than investment advice, our investment advisor representatives may sell other products or provide services outside of their role with Smedley Financial Services. Our investment advisor representatives concentrate the majority of their efforts toward sales of investments and investment advisory services.

Relationship with Securities America, Inc.

Depending on the type of Securities America account that could be used to implement a financial plan or investment strategy, such compensation may include (but is not limited to) advisory program fees; commissions; mark-ups and mark-downs; transaction charges; confirmation charges; small account fees; mutual fund 12b-1 fees; mutual fund sub-transfer agency fees; hedge fund managed futures, and variable annuity investor servicing fees; retirement plan fees; administrative services fees for trust accounts; compensation for directing order flow; and bonuses, awards or other things of value offered by Securities America to the advisor representative.

This compensation to the advisor representative and Securities America may be more or less depending on the product or service the advisor representative recommends. Therefore, the advisor representative has a financial incentive to recommend that a financial plan be implemented using a certain product or services.

Your representative may be incented to join and remain affiliated with Securities America through certain compensation arrangements which could include bonuses, enhanced pay-outs, forgivable loans and/or

business transition loans. Furthermore, there may or may not be production goals associated with the recommendation of a transaction from your representative. The receipt of any such compensation would be considered to be a conflict of interest. We encourage you to review this ADV closely and discuss any conflicts of interest with your representative.

The investment advisor representatives of Smedley Financial Services may recommend securities or insurance products offered by Securities America (or other insurance firms), and will receive the normal commissions if products are purchased through them; thus a conflict of interest exists between their interests and those of Smedley Financial Services' clients. Clients are under no obligation to purchase products recommended by investment advisor representatives or to purchase products either through Smedley Financial Services or Securities America.

Our principals and/or associated persons devote approximately 15% of their time to securities and life insurance commission business.

Relationship with Securities America Advisors, Inc.

We have established a relationship with Securities America Advisors, Inc., a registered investment advisor, to act as a sub-advisor in SAA's Managed Opportunities Program, a wrap-fee program. In addition, we may use the services of SAA, a registered investment advisor, through FAP when managing assets and, when doing so, SAA will receive a portion of the fees.

Relationship with Envestnet Asset Management Inc. – Model Portfolio Program

As discussed in the response to *Item 5 – Fees and Compensation* Smedley Financial Services, Inc. has entered in to an agreement with Envestnet Asset Management, Inc. to provide non-exclusive rights to use Model Portfolios created and managed by Smedley Financial Services for providing investment management services to Envestnet's clients.

Insurance Sales Activities

Smedley Financial Services, Inc. is also licensed as an insurance agency with the state of Utah. Some of the firm's investment advisor representatives are also individually licensed as insurance agents to provide insurance services to clients. Insurance products are provided to clients for personal, estate and business needs to minimize clients' exposure to identified risks. Although clients are under no obligation to purchase insurance products recommended by investment advisor representative in their separate capacities as insurance agents, clients often purchase such products when needs arise. For clients of Smedley Financial Services who purchase products causing commissions to be generated these are paid to the investment advisor representatives in their separate capacities as insurance agents. For those investment advisor representatives who are insurance licensed, this activity varies throughout the year.

You are never obligated or required to purchase insurance products through one of our advisor representatives licensed as insurance agents. However, when acting as an insurance agent, our advisor representatives can help you purchase insurance products and will receive separate compensation (i.e. insurance commissions) in addition to investment advisory fees charged by Smedley Financial Services. Clients that choose to purchase insurance products through one of our advisor representatives should be aware they will generally only recommend insurance products of those companies for whom they are sales agents and with which they are familiar with the benefits, exclusions and other terms.

Because our advisor representatives will receive commissions for selling insurance products, there is a conflict of interest in that they may recommend policies to clients that do not require or need insurance. To control for this conflict of interest and to be consistent with our firm's fiduciary duty, our advisor representatives strive to recommend insurance products only to those clients who need new or additional insurance coverage.

Third-Party Money Managers

Smedley Financial Services, Inc., does not recommend third-party money managers.

Under certain circumstances, exceptions may be made to the policies stated above.

Records of these trades, including the reasons for the exceptions, will be maintained with the our records.

- (2) Open-end mutual funds and/or the investment subdivisions which may comprise a variable insurance product are purchased or redeemed at a fixed net asset value price per share specific to the date of purchase or redemption. As such, transactions in mutual funds and/or variable insurance products by Covered Persons are not likely to have an impact on the prices of the fund

shares in which clients invest, and are, therefore, not prohibited by our Investment Policy and Procedures.

We are and will continue to be in compliance with *The Insider Trading and Securities Fraud Enforcement Act of 1988*. In accordance with Section 204A of the *Investment Advisers Act of 1940*, we also maintain and enforce written policies reasonably designed to prevent the misuse of material nonpublic information by us or any person associated with us.

According to the *Investment Advisers Act of 1940*, an investment advisor is considered a fiduciary. As a fiduciary, it is an investment advisor's responsibility to provide fair and full disclosure of all material facts. In addition, an investment advisor has a duty of utmost good faith to act solely in the best interest of each client. We and our associated persons have a fiduciary duty to all clients. We have established a Code of Ethics which all associated persons must read and then execute an acknowledgement agreeing that they understand and agree to comply with our Code of Ethics. We and associated persons' fiduciary duty to clients is considered the core underlying principle for our Code of Ethics and represents the expected basis for all associated persons' dealings with clients. We have the responsibility to make sure that the interests of clients are placed ahead of ours or our associated persons' own investment interests. All associated persons will conduct business in an honest, ethical and fair manner. All associated persons will comply with all federal and state securities laws at all times. Full disclosure of all material facts and conflicts of interest will be provided to clients prior to services being conducted. All associated persons have a responsibility to avoid circumstances that might negatively affect or appear to affect the associated persons' duty of complete loyalty to their clients. This section is only intended to provide current clients and potential clients with a description of our Code of Ethics. If current clients or potential clients wish to review our Code of Ethics in its entirety, a copy may be requested from any of our associated persons and a copy will be provided promptly.

Affiliate and Employee Personal Securities Transactions Disclosure

Smedley Financial Services, Inc. or our associated persons may buy or sell for their personal accounts, investment products identical to those recommended to clients. This creates a conflict of interest. It is the express policy of Smedley Financial Services, Inc. that all persons associated in any manner with our firm must place the interests of our clients ahead of their own when implementing personal investments. Smedley Financial Services, Inc. and its associated persons will not buy or sell securities for their personal account(s) where their decision is derived, in whole or in part, by information obtained as a result of employment or association with our firm unless the information is also available to the investing public upon reasonable inquiry. In order to minimize this conflict of interest, securities recommended by Smedley Financial Services, Inc. are widely held and publicly traded.

Item 12 – Brokerage Practices

1. Research and Other Soft Dollar Benefits Smedley Financial Services, Inc. has no Soft Dollar agreements with any broker/dealer.

2. Brokerage for Client Referrals Smedley Financial Services, Inc. does not direct brokerage in return for client referrals.

Clients are under no obligation to act on the financial planning recommendations of Smedley Financial Services, Inc. If the firm assists in the implementation of any recommendations, we are responsible to ensure that the client receives the best execution possible.

We are limited in the broker/dealer or custodians that we are allowed to use due to our relationship with Securities America. Securities America may limit or restrict the broker/dealer or custodial platforms for its registered representatives that are also independently licensed due to its duty to supervise the transactions implemented by these individuals.

Although not a material consideration when determining whether to recommend that you utilize the services of NFS (or other designated broker/dealer/custodian), we may receive from NFS (or such other designated broker/dealer/custodian), without cost (and/or at a discount), support services and/or products which assist us to better monitor and service client accounts maintained at NFS (or such other designated broker/dealer/custodian).

Our associated persons sell securities and insurance products in their separate capacities as registered representatives and independent insurance agents and may earn sales commissions. Some of the advice offered by our associated persons involves investments in mutual fund products. Load and no-load mutual funds may pay annual distribution charges sometimes referred to as 12(b)-1 fees. Our associated persons may receive a portion of these 12(b)-1 fees from some investment companies in their separate capacities as registered representatives. You should be aware that these 12(b)-1 fees come from fund assets, and thus, indirectly from your assets. The receipt of these fees could represent an incentive for our associated persons to recommend funds with 12(b)-1 fees or higher 12(b)-1 fees over funds with no fees or lower fees, therefore creating a conflict of interest.

From time to time we may receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as advertising, publishing and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made.

In addition, in seeking best execution through NFS (or any other custodian), the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration, the full range of broker/dealer services, including historical relationship, reputation, financial strength, the value of research provided, execution capability, commission rates and responsiveness.

Execution of Brokerage Transactions (when applicable) In seeking best execution, the determinative factor is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker/dealer's services including the value of research provided, execution capability, commission rates and responsiveness. Accordingly, although we will seek competitive commission rates, we may not necessarily obtain the lowest possible commission rates for account transactions.

Consistent with obtaining best execution, transactions for the client's account may be effected through broker/dealers in return for research products and/or services which assist us in our investment decision making process. Such research generally will be used to service all of our clients (including accounts that may not generate commissions used to pay for investment research), but brokerage commissions paid by the client may be used to pay for research that is not used in managing the client's account. The account

may pay to a broker/dealer a commission greater than another qualified broker/dealer might charge to effect the same transaction where we determine in good faith that the commission is reasonable in relation to the value of the brokerage and research services received.

Handling Trade Errors

Smedley Financial Services, Inc. has implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with its fiduciary duty, it is our policy to correct trade errors in a manner that is in the best interest of the client. In cases where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole and any loss resulting from the trade error will be absorbed by us if the error was caused by the firm. If the error is caused by the broker-dealer, the broker-dealer will be responsible for handling the trade error. If an investment gain results from the correcting trade, the gain will remain in the client's account unless the same error involved other client account(s) that should also receive the gains and it is not permissible for all clients to retain the gain. We may also confer with client to determine if client should forego the gain (e.g., due to tax reasons).

Smedley Financial Services, Inc. will never benefit or profit from trade errors.

Block Trading Policy

Transactions implemented by Smedley Financial Services, Inc. for client accounts are entered independently.

Item 17 – Voting Client Securities

Proxy Voting Policy We do not vote client proxies. Therefore, although we may provide investment advisory services relative to client investment assets, our clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Other Business Activities

Registered Representative of Securities America, Inc.

Roger Smedley is separately licensed as a registered representative with Securities America, Inc. ("SAI"), a full service broker/dealer, member Financial Industry Regulatory Authority (FINRA) and Securities

Investor Protection Corporation (SIPC). When acting in his separate capacity as a registered representative of SAI, Mr. Smedley may sell, for commissions, general securities products such as stocks, bonds, mutual funds, exchange-traded funds, and variable annuity and variable life products to advisory clients. As such, he may suggest that advisory clients implement investment advice by purchasing securities products through a commission-based SAI account in addition to a Smedley Financial Services, Inc. advisory account.

The receipt of commissions creates an incentive for Roger Smedley to recommend those products for which he will receive a commission. Consequently, the objectivity of the advice rendered to clients could be biased. Mr. Smedley controls for this potential conflict of interest by discussing with clients the advantages and disadvantages of establishing a fee-based account through Smedley Financial Services, Inc. versus establishing a commission-based account through SAI. Smedley Financial Services, Inc. does not require its advisor representatives to encourage clients to implement investment advice through SAI.

Roger Smedley does not earn commissions in fee-based accounts.

Roger Smedley will receive 12b-1 fees from certain mutual fund companies as outlined in the fund's prospectus. 12b-1 fees come from fund assets, therefore, indirectly from client assets. The receipt of such fees could represent an incentive for Mr. Smedley to recommend funds with 12b-1 fees over funds that have no fees or lower fees. Typically, Mr. Smedley will receive 12b-1 fees only in commission-based brokerage accounts. Mr. Smedley discusses with clients the selection of a 12b-1 paying mutual fund or other trail paying mutual funds. Smedley Financial Services, Inc. maintains records of all 12b-1 fee payments to Mr. Smedley which may be viewed by clients upon request.

Clients are never obligated or required to establish accounts through Smedley Financial Services, Inc. or SAI. However, if a client chooses not to accept Roger Smedley's advice or decides not to establish an account through SAI or an SAI-approved custodian, Mr. Smedley may not be able to implement transactions for the client. Clients should understand that, due to certain regulatory constraints, Mr. Smedley, in his capacity as a SAI registered representative must place all purchases and sales of securities products in commission-based brokerage accounts through SAI or its other approved institutions.

Insurance Agent

Roger Smedley is independently licensed to sell insurance and annuity products through various insurance companies. When acting in this capacity, Mr. Smedley will receive commissions for selling insurance and annuity products.

Roger Smedley may also receive other incentive awards for the recommendation/sale of annuities and other insurance products. The receipt of compensation and other incentive benefits may affect the judgment of Mr. Smedley when recommending products to clients. While Mr. Smedley endeavors at all times to put the interest of his clients first as a part of Mr. Smedley's overall fiduciary duty to clients, clients should be aware that the receipt of commissions and additional compensation itself creates a conflict of interest, and may affect Mr. Smedley's decision making process when making recommendations.

Clients are never obligated or required to purchase insurance products from or through Roger Smedley and may choose any independent insurance agent and insurance company to purchase insurance

products. Regardless of the insurance agent selected, the insurance agent or agency will receive normal commissions from the sale.

Additional Compensation

Certain product sponsors may provide Roger Smedley with other economic benefits as a result of his recommending or selling the product sponsors' investments. The economic benefits he receives from product sponsors can include, but are not limited to, financial assistance or the sponsorship of conferences and educational sessions, marketing support, incentive awards, payment of travel expenses, and tools to assist him in providing various services to clients.

Smedley Financial Services, Inc. and Roger Smedley endeavor at all times to put the interest of clients ahead of their own interests or those of the advisor's officers, directors, or representatives. However, these arrangements could affect Mr. Smedley's judgment when recommending investment products and present a conflict of interest.

Supervision

James Derrick is the Chief Compliance Officer of Smedley Financial Services, Inc. He is responsible for developing, overseeing and enforcing the firm's compliance programs that have been established to monitor and supervise the activities and services provided by the firm and its representatives, including Roger Smedley. Mr. Derrick can be contacted at (801) 355-8888.

Other Business Activities

Registered Representative of Securities America, Inc.

Mikal Aune is separately licensed as a registered representative with Securities America, Inc. ("SAI"), a full service broker/dealer, member Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC). When acting in his separate capacity as a registered representative of SAI, Mr. Aune may sell, for commissions, general securities products such as stocks,

bonds, mutual funds, exchange-traded funds, and variable annuity and variable life products to advisory clients. As such, he may suggest that advisory clients implement investment advice by purchasing securities products through a commission-based SAI account in addition to a Smedley Financial Services, Inc. advisory account.

The receipt of commissions creates an incentive for Mikal Aune to recommend those products for which he will receive a commission. Consequently, the objectivity of the advice rendered to clients could be biased. Mr. Aune controls for this potential conflict of interest by discussing with clients the advantages and disadvantages of establishing a fee-based account through Smedley Financial Services, Inc. versus establishing a commission-based account through SAI. Smedley Financial Services, Inc. does not require its advisor representatives to encourage clients to implement investment advice through SAI.

Mikal Aune does not earn commissions in fee-based accounts.

Mikal Aune will receive 12b-1 fees from certain mutual fund companies as outlined in the fund's prospectus. 12b-1 fees come from fund assets, therefore, indirectly from client assets. The receipt of such fees could represent an incentive for Mr. Aune to recommend funds with 12b-1 fees over funds that have no fees or lower fees. Typically, Mr. Aune will receive 12b-1 fees only in commission-based brokerage accounts. Mr. Aune discusses with clients the selection of a 12b-1 paying mutual fund or other trail paying mutual funds. Smedley Financial Services, Inc. maintains records of all 12b-1 fee payments to Mr. Aune which may be viewed by clients upon request.

Clients are never obligated or required to establish accounts through Smedley Financial Services, Inc. or SAI. However, if a client chooses not to accept Mikal Aune's advice or decides not to establish an account through SAI or an SAI-approved custodian, Mr. Aune may not be able to implement transactions for the client. Clients should understand that, due to certain regulatory constraints, Mr. Aune, in his capacity as a SAI registered representative must place all purchases and sales of securities products in commission-based brokerage accounts through SAI or its other approved institutions.

Insurance Agent

Mikal Aune is independently licensed to sell insurance and annuity products through various insurance companies. When acting in this capacity, Mr. Aune will receive commissions for selling insurance and annuity products.

Mikal Aune may also receive other incentive awards for the recommendation/sale of annuities and other insurance products. The receipt of compensation and other incentive benefits may affect the judgment of Mr. Aune when recommending products to clients. While Mr. Aune endeavors at all times to put the interest of his clients first as a part of Mr. Aune's overall fiduciary duty to clients, clients should be aware that the receipt of commissions and additional compensation itself creates a conflict of interest, and may affect Mr. Aune's decision making process when making recommendations.

Shane Thomas is separately licensed as a registered representative with Securities America, Inc. ("SAI"), a full service broker/dealer, member Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC). When acting in his separate capacity as a registered representative of SAI, Mr. Thomas may sell, for commissions, general securities products such as stocks, bonds, mutual funds, exchange-traded funds, and variable annuity and variable life products to advisory clients. As such, he may suggest that advisory clients implement investment advice by purchasing

securities products through a commission-based SAI account in addition to a Smedley Financial Services, Inc. advisory account.

The receipt of commissions creates an incentive for Shane Thomas to recommend those products for which he will receive a commission. Consequently, the objectivity of the advice rendered to clients could be biased. Mr. Thomas controls for this potential conflict of interest by discussing with clients the advantages and disadvantages of establishing a fee-based account through Smedley Financial Services, Inc. versus establishing a commission-based account through SAI. Smedley Financial Services, Inc. does not require its advisor representatives to encourage clients to implement investment advice through SAI.

Shane Thomas does not earn commissions in fee-based accounts.

Shane Thomas will receive 12b-1 fees from certain mutual fund companies as outlined in the fund's prospectus. 12b-1 fees come from fund assets, therefore, indirectly from client assets. The receipt of such fees could represent an incentive for Mr. Thomas to recommend funds with 12b-1 fees over funds that have no fees or lower fees. Typically, Mr. Thomas will receive 12b-1 fees only in commission-based brokerage accounts. Mr. Thomas discusses with clients the selection of a 12b-1 paying mutual fund or other trail paying mutual funds. Smedley Financial Services, Inc. maintains records of all 12b-1 fee payments to Mr. Thomas which may be viewed by clients upon request.

Clients are never obligated or required to establish accounts through Smedley Financial Services, Inc. or SAI. However, if a client chooses not to accept Shane Thomas' advice or decides not to establish an account through SAI or an SAI-approved custodian, Mr. Thomas may not be able to implement transactions for the client. Clients should understand that, due to certain regulatory constraints, Mr. Thomas, in his capacity as a SAI registered representative must place all purchases and sales of securities products in commission-based brokerage accounts through SAI or its other approved institutions.

Additional Compensation

Certain product sponsors may provide Shane Thomas with other economic benefits as a result of his recommending or selling the product sponsors' investments. The economic benefits he receives from product sponsors can include, but are not limited to, financial assistance or the sponsorship of conferences and educational sessions, marketing support, incentive awards, payment of travel expenses, and tools to assist him in providing various services to clients.

Smedley Financial Services, Inc. and Shane Thomas endeavor at all times to put the interest of clients ahead of their own interests or those of the advisor's officers, directors, or representatives. However, these arrangements could affect Mr. Thomas' judgment when recommending investment products and present a conflict of interest.
